New York Stock Market

New York, June 13.—The recent vio-lent breaks in stocks and the equally swift recovery yesterday were follow ed to-day by slower and calmer trad ing, with some further progress up-ward. Final changes in most cases, however, were small. The most ur-gent demands for short covering seemed to have been met yesterday. Investment buying fell off considerably to-day. A few stocks, including Rend-ing, Union Pacific, Amalagamated and Can, showed substantial gains at times, but the movement in general was narrow. New Haven, which was affected unfavorably by yesterday's wreck, was exceptionally weak, touch-

wreek, was exceptionally weak, touching a new low figure at 99 1-4.

In spite of the slackening demand, sentiment was more cheerful than for a long time. Not only here but in London a better feeling prevailed. There was some buying here for London account. Time rates were easier, although over the year money was will in seast, supply. A spirit of caustifity in seast, supply. still in scant supply. A spirit of cau-tion prevailed and speculative inter-ests wished to ascertain whether a definite turn in monetary conditions could come. Forecasts of the bank could come. Forecasts of the bank statement indicated that another ad-dition to cash would be shown. The known movements of currency for the week indicated a cash gain of \$8,000,-

The bond market was firm. Total sales par value \$2.684,000. United States &s advanced 1.8 on

Total sales were 518,700 shares,

New Orleans June 13.—After a small initial advance to-day, the price of cotten worked lower. The market had little of the stap shown on several preceding sessions this week, the port interest appeared to have been considerably reduced and longs were than for a further rise. One reason for the lower trend of the market was the more favorable turn taken by the weather over the cotton belt. Many of the more advanced sections of the beit reported blooms and reports from South Texas were that the first bale in the Corpus Christi district would make its appearance about July 1. The opening was steady at an advance of 265 points in the early trailing the advance was increased 545 points which was the highest of the day. Prices gradually sagged until they were 5010 points under the last contains of vesteriny. The afternoon was dull. The market closed barely steady at the lowest of the day. Spot cotton steady and unchanged middling 12% sales on the spot 42% hales and 16% to arrive. Cotton futures closed: January 11.2, March, 11.45. June, 12.21 nominal July, 12.22 August 11.87. September, 11.45, October, 11.55, December, 11.55.

There Are Further Advances and Decided Improvement in Tone. BY BROADAN WALL.

IN STOCK MARKET

STRONG CLOSING

New York, June 13 .- The stock market to-day closed strong with further advances and a decided improvement in undertone. Business decreased in volume, but this was to be expected. There was some buying for foreign account, and a continuation of

covering by the bears.

The Reld following was active in the American Can shares and Lehigh Valley, both stocks scoring a good advance. The week has been one of unusual stress in the stock market, and, now that the smoke is clearing away, stories are coming to the surface of forced liquidation that caused many severe losses.

A Wall Street operator, long known

for his activities on the bull side, is believed to have closed out a heavy believed to have closed out a heavy line of stocks that included Chesapeake and Ohlo, Southern Railway common, Utah and Chino Copper. It is understood that the calling of out-of-town loans precipitated the liquidation of this account on Thursday.

In two or three other cases individual operators were forced to vidual operators were forced to cur-tail their commitments when the mar-ket was at its worst, and the situa-

tion is, of course, the stronger now that this strain has been relieved.

A Boston operator, fond of advertis-ing, is credited with having closed a long line of shorts. This much is known, that the house credited with representing him here, was a big buyer of stocks on Thursday and to-day.

The London settlement passed oft without any notable fallure, but private cables indicate that several firms The amount brought into sight during the past week has been 35,556 dation will take place later. The buybales against 47,431 for the seven ing of Canadian Pacific in this mardays ending this date last year and for the thirteen days of June it had transferred to London names and transferred to London names and been 66,512 against 86,211 last year. split up into small certificates, in some The movement since September 1, cases as low as single shares. It is of the shows received that two or three blocks of to date shows receipts at all United stock that were carried here for loca account are now in the hands of Eng-States ports, 9,622,549, against 14,-

lish stockholders.

Traction stocks are again attracting Ohio and Potemac Rivers, to Northern was active and firm, and the Intermills and Canada, 942,290, against boroughs strong. Interborough-Metmills and Canada, 942,290, against 1,271,530 last year; interior stocks in excess of those held at the close of the commercial year, 168,642, against 101,808 last year; Southern mills takings, 2,565,000, against 2,343,145 last year.

The total movement for the 236 days of the season from September 1 19 closed with a pain of over topolitan closed with a gain of over the commercial year.

1.271,530 last year; interior stocks in the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the commercial year.

1.281,530 last year; interior stocks in the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitan closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of over the covering was largely repolitant closed with a gain of the season from September 1 to closed with a net loss of 1-8. An addate, is 13,309,481, against 15,488,291 vance in this stock was for some res list year, Foreign exports for the week have son discouraged, and the market was flooded with selling orders at 54. This been 66.844, against 35,298 last year, making the total thus far for the sea-

son 8,220,747, against 10,161,473 last There were many advances in the ear.

The total takings of American mills, lorth, South and Canada, thus far for he season, have been 4.912.942, ing at prices between 26 and 25. The gainst 5.025.214 last very North, South and Canada, thus far for the season, have been 4,912,948, Stocks at the seaboard and the twenty-nine leading Southern interior centres have decreased during the week 70,645 bales, against a decrease during the corresponding period last season of 25,694, and are now 71,684 smaller than at this date in 1812.

Including stocks left over

Including stocks left over at porms and interior towns from the last crop, and the number of bales brought into sight thus far from the new crop, the supply to date is 13,679,199, against 15,775,265 for the same period last year. that the so-called Wall Street control of the money market has received a violent check, and every one may go ahead as far as he likes in borrowing

The market is entitled to a further

CHARTERS GRANTED

New York June 18.—R. G. Dun's Review co-thorrow will say:
While reports regarding retail trade conditions indicate that activity is well sustained at many leading centres, some recession is noted at others, and wholesale buying is mainly confined to immediate requirements. The European political situation improved somewhat during the week, and the prospect of at agreement between the Halkan ailless will reflected in a stronger tone at all the leading financial centres. The decision of the Supreme Court in the Minnesota railway fate case was followed by a severe decline in security prices at New York, but the market recovered sharply later in the week. The government report of crop conditions, although showing a decline in winter wheat, indicates that the yield will be next to the largest on record, and points to a season of prosperity throughout the vast region where that cereal is the dominant factor in business conditions. Charters were issued by the State Corporation Commission yesterday as fellows:
Amendment to charter Pitte County Coal Company, Charlottesville, reducing outstanding stock from \$200,000 to \$29,000.

that cerea is the dominant factor in business conditions.

Walle unfilled from and steel ord is of the leading interest for May showed a neavy reduction, consumption continues large, and a new buying movement is anticipated at an early date. Buy goods clearance sales among joblers have been very successful, and while purchases in primary markers are still restricted, depicted stocks insure renewed activity the moment tartiff uncertainty is past. It alread gross earnings for all roads for May showed an increase of \$2 per cent as compared with a year ago, while bank exchanges for the week were 1.6 per cent prester than for the corresponding week last year, and \$2, per cent above 1911.
